Welcome

Child:
Every human being below the age of 18 in accordance with the Convention on the Rights of the Child.
House Rules

• **Safe space**
  - This meeting is being recorded
  - Only speakers’ interventions will be published
  - No city will be singled out

• **Chatham House Rule:**
  - Feel free to quote official speakers
  - Don’t reveal which other cities and/or people were present/absent in the meeting
  - Don’t quote or mention other candidate host cities
  - Don’t publish information about other candidate host cities mentioned during the meeting

*Executive Director – Centre for Sport and Human Rights*

Anucha Browne  
*Chief Strategy & Engagement Officer - UNICEF USA*
Centre for Sport and Human Rights

- A human rights organisation for the world of sport.

- **Aims:**
  - Support the prevention of human rights harms from occurring through sport
  - Support access to effective remedy where harms have occurred
  - Promote a positive human rights legacy from sport and sporting events
Child-Focused Questions

• Work as indicators

• Assess child-friendly cities

• Check cities’ respect for child rights

• Measure city’s progress
United 2026 Action Plan on Children

- Non-discrimination
- Commitment to Children’s Rights
- Reporting Violations and Access to Remedy for Children
- Child Protection & Safeguarding
- Child-Friendly Safe Public Spaces
Non-Child Specific Scorecard Areas

• Equality of Opportunity and Inclusivity
• Child Labour
• Child Trafficking
• Child-Sensitive Marketing & Communications
• Child-Sensitive Public Safety and Security
Non-Child Specific Scorecard Areas

• Child-Sensitive Disaster Emergency Preparedness
• Child-Sensitive Environmental Protections
• Displacement of Children and their Families
• Child-Sensitive Data Collection

Rio 2016 Olympic Games
“A new world”

The Games would be a showcase for new heroes, and for the transformative power of sport, in new territories and for the next generation.
Vila Autódromo was once home to more than 600 families. Although they had long lived under the threat of eviction, as the Games began to approach, government pressure intensified: energy cuts, lack of clean water, debris left lying around and police violence during forced removals.
“There were more police on the streets because of the Olympics and they were aggressive, they were beating us”

Helena, 17 years old
• **Police killings and militarization of the police:** as Olympic Games approached, police killings increased. April, May, June 2016 saw a 103% increase in the number of police killings (when compared to the same period in 2015).

• **Indiscriminate use of force against adolescents who protested before and during the Games:** in São Paulo, around 100 protesters were detained and in Rio at least 50 people were arrested (under the “Football Supporter Statute”).
Rio 2016 Olympics Case

1. Courageous and robust due diligence, including a risk and impact assessment with a wide stakeholder engagement
2. Targeted and human rights-based mitigation plan
3. Track and monitor all stages of the event, in collaboration with independent monitoring organizations
4. Sanctions for noncompliance with human rights and access to effective remedy and grievance mechanism
Standards that recognize and protect the dignity of all human beings
Govern how individuals live in society and with each other, as well as their relationship with governments and the obligations that governments have toward them.
Human Rights

Human Rights are:

• Universal
• Inalienable
• Indivisible
• Interdependent and interrelated

Redress
All children have human rights. Additionally, children have special rights.
For Every Right, For Every Child

- Children are individuals
- Actions/inactions impact children more strongly
- Changes in society have a disproportionate, and often negative impact on children
- The costs to society of failing its children are huge
Convention of the Rights of the Child (CRC)
What is the Convention on the Rights of the Child?

• The world's most widely ratified United Nations Human Rights treaty

• Most comprehensive:
  • Cultural, economic, political, social, civil rights

• Framework to inform all decisions, behaviors, programs, activities
What does this mean for children?

- World leaders recognized children need special care and protection
- Children’s rights are not as an option, kindness, or charity
- Revolutionary shift in how we see children
Core Child Rights Principles

• Non-discrimination
• Best interests of the child
• Life, survival and development
• Expression of views

UN Guiding Principles on Business and Human Rights

...are a commonly used set of principles that provided the first global standard for preventing and addressing the risk of adverse impacts on human rights linked to organizations, and they continue to provide the internationally accepted framework for enhancing standards and practices regarding organizations’ operations and activities.

The framework offered by the UNGPs offer a key tool for governments and organizations to understand their respective roles and duties to manage and account for their human rights impacts.
UN Guiding Principles on Business and Human Rights

- Adopt a human rights policy (include child rights)
- Embed respect for human rights (assign responsibility & budgets)
- Identify & evaluate risks
- Address risks (prioritise severe and urgent risks)
- Track and communicate on performance
- Enable access to remedy (make good harms)
- Stakeholder Engagement (with affected people)
- Give children a say!
Children’s Rights and Business Principles

1. Commitment to children’s rights
2. Elimination of child labour
3. Decent work for young workers, parents and caregivers
4. Protection and safety of children
5. Safe products and services for children
6. Responsible marketing and advertising
7. Respect children’s rights in relation to environment and land acquisition
8. Children’s rights in security arrangements
9. Protect children in emergencies
10. Reinforce government and community efforts to fulfill children’s rights

Brainstorm – Risks and Opportunities for Children

- Identify risks and opportunities for children according to the stages of the MSE Lifecycle
- Share them on the chat
- If you prefer, send them privately, to Lucy Amis
- 5 minutes per cluster
What are the risks and opportunities for children?

1. VISION, CONCEPT & LEGACY

• Respect for human rights (including child rights) embedded from the outset
• Children participate in developing each city’s bid, concept and legacy plans
What are the risks and opportunities for children?

BIDDING, PLANNING & DESIGN

- Ongoing stakeholder engagement with children and their representatives on decisions that affect them, with children given a voice themselves.
- Land acquisition and development avoids family evictions and/or rehousing that disrupts a children’s family life and right to an adequate standard of living.
What are the risks and opportunities for children?

3 INCOME GENERATION

• Child rights due diligence conducted on sponsors, licensees and broadcasters
• Brand association and marketing plans consider impacts on children – e.g. tobacco, alcohol, fast food, sugary drinks
What are the risks and opportunities for children?

4 SUSTAINABLE SOURCING

• Procurement processes identify and tackle child labour risks across the supply chain e.g. timber, agricultural products and merchandise
• Tender processes and supplier contracts include child labour clauses and provide decent work clauses for parents, caregivers and young workers
• Complaints and dispute resolution mechanism set up to handle child labour/rights abuses
What are the risks and opportunities for children?

CONSTRUCTION

- Decent working conditions and pay for construction workers (including migrants) so workers and their children enjoy the right to a family life and adequate standard of living
- Construction and overlay projects consider impacts on child rights in host cities
What are the risks and opportunities for children?

6  DELIVERY & OPERATIONS

- Security and law enforcement protects / respects child rights. No exposure to violence
- Risks of child sexual exploitation and child trafficking identified and addressed
- Children in host cities retain right to peaceful protest, to access schools, and to play
COMPETITION

• Child players, fans, volunteers and children in the host city are safeguarded from violence, abuse, exploitation and neglect - e.g. physical, psychological or sexual
• Child players & volunteers free from harassment, bullying, doping or media intrusion
• Child players enjoy their rights, e.g. to freedom of speech and expression
What are the risks and opportunities for children?

8 LEGACY

• Venue and infrastructure development is sustainable and benefits local children, e.g. new recreational space

Our mission is to empower Boulder’s young people with opportunities for inclusion, influence and deliberation on local issues that affect their lives.
Growing Up Boulder (GUB)

- Growing Up Boulder founded 2009
- Engaged 6,000 children and youth
- Worked with 1,500 university students
- 50% or more of young people from historically marginalized groups:
  - children of color
  - English Language Learners
  - children with disabilities
  - underresourced children
  - LGBTQ
Abdullah Akl: UNICEF USA Natl. CFCL Youth Advisor
Question 1: What is meaningful child and youth engagement?
Poll:
What do you think child/youth engagement is?
Defining Child and Youth Participation

Children and youth, individually and/or collectively, forming and expressing their views and influencing matters that concern them directly and indirectly.
Modes of Participation

Consultative participation
- adult initiated;
- adult led and managed;
- lacking possibility for adolescents to control outcomes;
- recognizing the added value that adolescents' perspective, knowledge and experience can contribute.

Collaborative Participation
- adult initiated;
- involving partnership with adolescents;
- enabling adolescents to influence or challenge both process and outcome;
- allowing for increasing levels of self-directed action by adolescents over a period of time.

Adolescent-led Participation
- the issues of concern being identified by adolescents themselves;
- adults serving as facilitators rather than leaders;
- adolescents controlling the process and the outcomes.

No participation or unethical participation
In most societies, the majority of adolescents have little or no opportunity to express their views.
Child Safeguarding: Everyone's Responsibility

Definition: Proactive measures to limit direct and indirect collateral risks of harm to children from our work, personnel or associates.

- Each of us is responsible to avoid and minimize risks of harm to children
  - In our work, through our activities and by our people
  - Direct or indirect, deliberate or not
  - Including through communication and other activities
Perspective Taking

What does it mean to you for children’s views to be taken into account in a meaningful and authentic way?
Question 2: Why invest in young people’s voices?
Poll:
What reasons do you think are most important to justify engaging children and youth?
Why do child and youth voice matter?

- Children are both CURRENT and future citizens
- It make sense to include the end-user in your design process
- A child-friendly city is a city that is friendly to all (seniors, disabled, other species)
Why do child and youth voice matter?

- Young people offer creative and flexible ways of thinking – they bring a unique perspective
- Benefits of dialogue for all involved
- Young people’s enthusiasm is contagious!
- Child participation is a fundamental right
Children’s input leads to better outcomes for:

• Their communities

• Children and youth themselves

• Their parents and caregivers

• Their government

• Program and policy decisions

Question 3: How Do You Engage Young People?

Day 1 - Wrap up
Key messages from today

• Children are at greater risk in the context of an MSE
• Every step of the MSE Lifecycle represents risks and opportunities for children
• Cities must go way beyond compliance. Commitments must be transformed into practical action.
• We must look at every structure and ask: is this for the best interest of children?
• Children must be involved in a meaningful way in the planning and decision-making processes.
• Child participation is beneficial to everyone. There are very practical, safe and age-appropriate ways of enabling that.

During this session we will cover:

• What is child safeguarding?
• Why is safeguarding important?
• Lessons from previous MSEs
• What steps you can follow to take action, and;
• Where you can go for additional support
“All forms of harassment and abuse breach human rights...There is a legal and moral duty of care incumbent on those who organize sport, to ensure that risks of non-accidental violence are identified and mitigated.”

IOC Consensus Statement on harassment and abuse (non-accidental violence) in Sport (2016)

“However they are involved in the game, what these children all have in common is the right to enjoy football in a safe environment, in a culture of respect and understanding.”

Gianni Infantino, foreword to FIFA Guardians Toolkit (2019)
What do we mean by ‘Child Safeguarding’?

**Prevention** – actions to prevent harm from happening

**Response** – taking action when you are worried that harm has happened or might happen
An introduction to Safeguarding for Host Cities

Safeguarding and Child Protection

Child protection forms part of the ‘response’ part of safeguarding
What do we mean by ‘harm’?

- Emotional, physical and sexual harm
- Caused by violence, abuse, harassment and neglect
Types of violence:

- **Neglect**: The failure to provide a minimum level of care, which causes or allows harm.

- **Physical**: Physical trauma and injuries caused by punching, beating, kicking, etc.

- **Psychological/Emotional**: The failure to provide an appropriate environment or any unwelcome act that may diminish the sense of identity, dignity and self-worth.

- **Sexual**: Any sexual act, or attempt to obtain a sexual act, or unwanted sexual comments, or acts to traffic, that are directed against a person’s sexuality using coercion.
Why is safeguarding so important during MSEs?

United Nations Convention on the Rights of the Child (UNCRC)
An introduction to Safeguarding for Host Cities
An introduction to Safeguarding for Host Cities

Kazan Action Plan

A commitment of Governments made by their Ministers of Sport to ensure that sport contributes to the achievement of the UN Agenda 2030 and its SDGs
Other considerations

• It is every child’s right to be safe during an MSE

• It is every Host City’s responsibility to protect them

and…..

• Scientific evidence
• Duty of care
• Reputation
• Recognition
• Benefits of sport
We fail when:

• We don't put children’s rights and dignity at the heart of the action

• We don't feel responsible

• We don't know what to do/how to do it

• We don't team up
Lessons from previous MSEs: Risks

• Common Risks

• Risks from who?
Lessons from previous MSEs: Which children?

- Children in the host community
- Child spectators
- Child volunteers
- Child Athletes
- Before, during and after the event
Lessons from previous MSEs: Effective approaches

• National Security Strategy, 2006 FIFA World Cup in Germany
• Child Protection Strategy, 2010 FIFA World Cup in South Africa
• Integrated Safeguarding, London 2012 Olympic and Paralympic Games
• Projeta Brasil App, 2014 FIFA World Cup, Brazil
• Reporting and Welfare Officers, Rio 2016 Olympic Games
• Safe Sport Booth, Buenos Ares 2018 Youth Olympic Games
• It’s a Penalty Campaign (various)

What next?
Mapping your contact points with children in your cities

• In-person contact
• Virtual contact
Mapping your contact points

1. Go to the link of your group
2. Nominate someone to report back to the main group
3. Identify all your points of contact, virtual and in-person where children could be at risk
4. Begin to reflect on how you might manage the risks
Report back

All
• please answer the poll

Nominated reporter:
• What areas did you identify?
• What ways of managing risk did you identify?
Advice on risk mapping back in your city:

- How to engage meaningfully children in your cities
- Additional considerations for you to think about
An introduction to Safeguarding for Host Cities

5 Key Steps for developing Safeguarding:

1. Conduct a Safeguarding Risk Assessment
2. Conduct a gap analysis of policies and procedures
3. Develop a safeguarding policy commitment
4. Develop and roll out an implementation plan
5. Monitor, evaluate and improve

Legacy

Amy Farkas Karageorgos
Disability and Inclusion Specialist
MSE hosts view legacy most often as positive intended impacts on the host country, city and local community...
But...
legacy can also have negative impacts and...
What is Legacy

occur during all phases of an MSE.
What is Legacy

- **CULTURAL**
- **ECONOMIC**
- **ENVIRONMENTAL**
- **LEGAL**
- **SOCIAL**
- **URBAN**
Key Considerations

- Be specific on how it impacts children
- Engage all relevant stakeholders
- Be sure to engage children
- Ensure children are reflected in event’s budget
- Be honest, realistic and inspirational
1. Has the MSE’s legacy taken into consideration the best interests of children?

2. Has the MSE’s legacy helped strengthen the capacity of those accountable to respect and protect the rights of children?

3. Has the MSE’s legacy helped children to know and claim their rights?

4. Have measures been taken to ensure that the MSE’s legacy will not discriminate against any child?

5. Have the views children been taken into account in the planning of the MSE’s legacy?

6. Has the MSE’s legacy been sustainably and ethically planned to ensure children’s rights have not been violated?
Stakeholder Engagement

WHY?

WHAT?

WHO?

HOW?
Instructions – Scenarios

- Group will be split into 3 breakout groups /scenarios
- Go to the link of your group
- Each breakout group will:
  - have 15 minutes to discuss a set of questions
  - identify someone to take notes
  - identify someone to report back to the plenary in 2-3 minutes what was agreed by the group
• What are your **key considerations** to ensure this legacy initiative is child-focused and makes a positive impact on the lives of children?
• **Who** will you consult with?
• Please give one example of how you would **evaluate** the impact of this legacy?
Scenario 1

**Legacy area:** social legacy

**Aim:** to increase sport participation among less active children or children facing social exclusion or economic hardship in the host city

**Questions:**

- What are your key considerations to ensure this legacy initiative is child-focused and makes a positive impact on the lives of children?
- Who will you consult with?
- Please give one example of how you would evaluate the impact of this legacy?
Scenario 2

**Legacy area:** cultural legacy

**Aim:** to increase tolerance and inclusion of children facing social exclusion or economic hardship in the host city

**Questions:**
- What are your key considerations to ensure this legacy initiative is child-focused and makes a positive impact on the lives of children?
- Who will you consult with?
- Please give one example of how you would evaluate the impact of this legacy?
Scenario 3

Legacy area: environmental legacy

Aim: to create a greener environment in the host city for children and their families

Questions:
• What are your key considerations to ensure this legacy initiative is child-focused and makes a positive impact on the lives of children?
• Who will you consult with?
• Please give one example of how you would evaluate the impact of this legacy?
Reporting back to the Group
Remember legacy can be positive or negative.

A positive legacy for children is achieved if an MSE:

• takes child’s best interests into account,
• helps build the capacity of those accountable
• helps build the capacity of children
• does not discriminate
• takes views and concerns of children into account
• sustainably and ethically planned
Looking ahead

We are looking forward to seeing a positive legacy for and with children from all United 2026 host cities.
United 2026 and Children

Next Steps
Key messages from today

• Sport, with intentional actions, has the power to build the world we want

• MSEs = children at risk of being harmed
  • map points of contact and most affected groups
  • design actions to prevent and respond
  • involve the right stakeholders

• United 2026 has the historical opportunity of building positive human and child legacy
Next steps

• Stakeholder Engagement Plan
• Count on us as a resource now and for the next years
• Office Hours
  • Send your preliminary questions by Dec 4th to thays.prado@sporthumanrights.org
  • Book your 30 min slot
  • We find the best expert to meet with you
  • Respect for the bidding process
    • Confidential
    • We don’t give advice
    • We only answer your question
Polls:
1. How helpful was this event for you?

2. After these two days, how likely are you to include more actions regarding children in your human rights strategy?

3. For which of these issues you would you like to have more information and support from the Centre and from UNICEF? (pick all that apply)?

4. Among the issues not covered in depth during the event, which ones would you like to know more about in future events? (pick two)

5. How would you like to keep engaging with us? (all that apply)
